

Dear Sirs,

I would like to comment on the review to go to LPFM, with priority over FM translators situations. Specifically, I live in a very rural area--20,000 people in Teller County, 12 miles to the nearest town: Cripple Creek, or Woodland Park. KLOVE is broadcast into our area on 91.1FM and no one would be able to afford to set up a local low power station to replace K-LOVE due to the mountainous terrain. K-LOVE is a pleasure to listen to over the normal fair of Hispanic stations, country and western, or hard-rock; none of which I would delete. However, I listen to K-LOVE everyday, approximately six hours on the jobsite, In addition, both my wife and I have K-LOVE on most of the time in the cars.

We ask that you take action to assure that we do not lose the benefit of K-LOVE in our area.

Regards,

RUSS FRISINGER
